## BeefAssetPro Apex Development

The client possesses a vast amount of experience building Software-as-a-Service (SaaS) or Platform as Service (PaaS) applications. In fact, the client team developed one of the first ever SaaS-based in Animal Agriculture (Beef Industry). Since then it has been involved in design, develop, and launch more SaaS based solutions for clients in the areas of Animal Agriculture (Beef, Poultry, Aquaculture, Equine, Swine), Drug Industry, Transportation ( Tire Management Solution), Oil & Gas.

iWareLogic has offered high-grade services and contributed immensely in the client achieving their goals using cutting-edge technologies.

The client possesses a vast amount of experience building Software-as-a-Service (SaaS) or Platform as Service (PaaS) applications. In fact, the client team developed one of the first ever SaaS-based in Animal Agriculture (Beef Industry). Since then it has been involved in design, develop, and launch more SaaS based solutions for clients in the areas of Animal Agriculture ( Beef, Poultry, Aquaculture, Equine, Swine), Drug Industry, Transportation (Tire Management Solution), Oil & Gas.

### Demand Drivers

- Designed exclusively for the feed yard where a complete process of feeding and harvesting an animal should be captured.
- Main aim of the product should be to provide as much information as possible to the feed yard at one place so that they can manage their expenses and increase their profits.
- Application should be a web based solution.

### Pain Points / Challenges

- Customize context menu items (fetched from database table) for any item:
- Handling .svg image for feedyard map.
- Partial page refresh (to refresh a report on selection of a value in a select list).

### Approach / Solution

- Implemented the required features using Oracle Application Express.
- Used jQuery and AJAX to resolve the issues.

### Results

- Provided advance software development services in the area of Oracle Application Express.
- Offered high-grade services and contributed immensely in achieving the client goals using cutting-edge technologies.
- A happier and satisfied client.

## What the Client had to say?

“iWareLogic has been providing advanced software development services in the area of Oracle Technologies in general and Oracle Application Express in particular to us for more than a year (or since April 2010). We are involved in the development of advanced software products in Agriculture domain for global markets. It also includes making these software products available on mobile platforms.

iWareLogic has offered high-grade services and contributed immensely in our achieving these goals using cutting-edge technologies. We believe iWareLogic has very bright prospects going into the future.”

– Leading APEX Development Company in the USA.
