Oracle Application Express combines the qualities of a personal database, productivity, ease of use, and flexibility with the qualities of an enterprise database, security, integrity, scalability, availability and built for the web.

Leading system of coroners that spans NSW, Australia

The client investigates approximately 6,000 reportable deaths annually. Investigations into an average 3,500 deaths annually are coordinated through the Court in Glebe while investigations into a further 2,500 deaths annually are coordinated by coroners and assistant coroners in various rural and regional locations throughout NSW.

iWareLogic successfully implemented APEX which helped the client in generating vital reports.

Leading system of coroners that spans NSW, Australia

The client investigates approximately 6,000 reportable deaths annually. Investigations into an average 3,500 deaths annually are coordinated through the Court in Glebe while investigations into a further 2,500 deaths annually are coordinated by coroners and assistant coroners in various rural and regional locations throughout NSW.

Demand Drivers

- The Australia Melbourne (VIC) Coroner's Office is responsible for investigating deaths where the circumstances are sudden, traumatic or unexplained.
- Their priority is to investigate the person's death sensitively and professionally.
- Need to create forms and reports according to the processes involved in the Coronial Investigation.

Pain Points / Challenges

- Build the same forms and reports as already built in Ingress.

Approach / Solution

- Understand their existing reporting tool.
- Understand the flow of the application.

Results

- Client feedback for the analysis and design phase was very good.
- They had clearly appreciated our efforts and outcome of the project

What the Client had to say?

“It was a real pleasure to work with the iWareLogic team on our Oracle APEX development project. Their professionalism and skill was second to none and we enjoyed working with them. I hope to use them again in the near future.”
